Level Headed Banker

The American Bankers Association is in session this week at St. Joseph and Wednesday president P. W. Goebel in the course of his address to the association said in part.

"To refuse credit at this time is cowardice, yes, almost treason.

The principal foe, said Goebel, is famine, and famine must be fought with food. It is the part of banker to lend the money necessary to finance the production of this food, and every man with ability or collateral ought to be able to borrow whatever money is necessary to carry on his work, he said.

The bank that in the next few months is afraid to take a redicount is a slacker and the one that has a reasonable amount of redicount showing can be marked as a patriotic institution.

"Not Our Can"

A little lad at Carmel, Ind., whose mother was sick, was asked by a neighbor woman to bring the coal oil, as she wished to kindle the fire.
